Application Driven Silicones & Hybrids

3/22/2020

COVID - 19

To our valued customers and general public,

In compliance with the Ohio Department of Health's Stay At Home Order of March 22, 2020, which encourages All Essential Business and Operations to stay open, Silco, Inc. is observing normal business hours as we work to serve the industries that the Order defines as Essential Infrastructure, Businesses and Operations. These include construction (including hospitals, essential business construction and housing); building management and maintenance, and support of the supply chain for critical products and industries, all as set forth in the Order.

To further support and comply with the letter and spirit of the Order, we encourage anyone who needs to reach Silco, to do so through general e-mail orders@silco-inc.com or by phone 440-975-8886, rather than in-person visits until the Order is lifted. Thank you for your support during these difficult times.

Best wishes for continued success and good health!

John Boland
President
Silco, Inc.
