#### 4 First-Aid Measures

- · Description of first aid measures
- After inhalation: Supply fresh air; consult doctor if symptoms persist.
- · After skin contact:
- Wash with soap and water.

If skin irritation occurs, consult a doctor.

• After eye contact:

Rinse opened eye for several minutes under running water.

If easy to do so, remove contact lenses if worn.

If eye irritation occurs, consult a doctor.

- After swallowing: If swallowed and symptoms occur, consult a doctor.
- · Information for doctor
- Most important symptoms and effects, both acute and delayed:

Aside from the information found under Description of first aid measures (above) and Indication of immediate medical attention and special treatment needed (below), any additional important symptoms and effects are described in Section 11: Toxicology Information.

Indication of any immediate medical attention and special treatment needed:

No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient.

#### 5 Fire-Fighting Measures

#### · Extinguishing media

- Suitable extinguishing agents:
- CO<sub>2</sub>, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
- For safety reasons unsuitable extinguishing agents: No further relevant information.

#### Special hazards arising from the substance or mixture:

Carbon oxides, Silicon oxides, Metal oxides

Exposure to combustion products may be a hazard to health.

- Advice for firefighters
- Special protective equipment for firefighters:

As in any fire, wear self-contained breathing apparatus pressure-demand (NIOSH approved or equivalent) and full protective gear to prevent contact with skin and eyes.

· Additional information: Cool fire exposed containers with water.

#### 6 Accidental Release Measures

Personal precautions, protective equipment and emergency procedures:

Wear protective equipment. Keep unprotected persons away.

Environmental precautions:

Do not allow to enter sewers/surface or ground water.

Inform respective authorities in case of seepage into water course or sewage system.

#### Methods and material for containment and cleaning up:

Ensure adequate ventilation.

Absorb with liquid-binding material (i.e. sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to section 13.

#### Reference to other sections:

See Section 7 for information on safe handling.

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

OSHA HazCom Standard 29 CFR 1910.1200(g) and GHS Rev 03.

#### · Protective Action Criteria for Chemicals

64-19-7	Acetic Acid			
108-24-7	-7 acetic anhydride			
70131-67-8	Hydroxy terminated polydimethylsiloxane			
7631-86-9	Silicon Dioxide	18 mg/m³		
63148-62-9	Polydimethylsiloxane	65 mg/m³		
13463-67-7	67-7 Titanium Dioxide			
PAC-2:				
64-19-7	Acetic Acid	35 ppm		
108-24-7	acetic anhydride	15 ppm		
70131-67-8	Hydroxy terminated polydimethylsiloxane	2,100 mg/m <sup>3</sup>		
7631-86-9	Silicon Dioxide			
63148-62-9	Polydimethylsiloxane 7			
13463-67-7	Titanium Dioxide 3			
PAC-3:				
64-19-7	Acetic Acid	250 ppm		
108-24-7	acetic anhydride 10			
70131-67-8	Hydroxy terminated polydimethylsiloxane 13			
7631-86-9	Silicon Dioxide 4,5			
63148-62-9	Polydimethylsiloxane	4,300 mg/m <sup>3</sup>		
13463-67-7	Titanium Dioxide	2,000 mg/m <sup>3</sup>		

#### 7 Handling and Storage

#### · Handling

· Precautions for safe handling: Ensure good ventilation/exhaustion at the workplace.

· Information about protection against explosions and fires: No special measures required.

- · Conditions for safe storage, including any incompatibilities
- · Storage
- · Requirements to be met by storerooms and receptacles: Keep in properly labelled containers.
- · Information about storage in one common storage facility: See Section 10 (Incompatible materials)
- Further information about storage conditions: Keep receptacle tightly sealed.
- · Specific end use(s): No further relevant information available.

#### 8 Exposure Controls/Personal Protection

· Additional information about design of technical systems: No further data; see section 7.

#### · Control parameters:

#### Components with occupational exposure limits:

The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

• Additional information: The lists that were valid during the creation of this SDS were used as basis.

• Exposure controls:

Ventilation must be adequate to maintain the ambient workplace atmosphere below the exposure limit(s) outlined in the SDS. Where acceptable concentrations cannot be maintained by general mechanical ventilation, local exhaust ventilation is recommended.

OSHA HazCom Standard 29 CFR 1910.1200(g) and GHS Rev 03.

- · Personal protective equipment
- General protective and hygienic measures:

The usual precautionary measures for handling chemicals should be followed.

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing and wash before reuse.

Wash hands before breaks and at the end of work.

- Avoid contact with the eyes and skin.
- · Breathing equipment:

Respiratory protection should be worn when there is a potential to exceed the exposure limit requirements or guidelines. If there are no applicable exposure limit requirements or guidelines, wear respiratory protection when adverse effects, such as respiratory irritation or discomfort have been experienced, or where indicated by your risk assessment process. For most conditions no respiratory protection should be needed; however, if discomfort is experienced, use an approved air-purifying respirator. The following should be effective types of air-purifying respirators: Organic vapor cartridge with a particulate pre-filter.

- Protection of hands: Not necessary under normal condidtions.
- · Material of gloves: Not applicable.
- · Penetration time of glove material: Not applicable.
- Eye protection:

Safety glasses with side shields

#### · Limitation and supervision of exposure into the environment: None

#### 0 Stability and Reactivity

- · Reactivity: No further relevant information available.
- · Chemical stability:
- Thermal decomposition / conditions to be avoided:
- Thermal decomposition will result in the following: Carbon oxides, Silicon oxides, Metal oxides
- · Possibility of hazardous reactions:

Can react with strong oxidizing agents. When heated to temperatures above 150 °C (300 °F) in the presence of air, trace quantities of formaldehyde may be released. Adequate ventilation is required.

- Conditions to avoid: No further relevant information available.
- · Incompatible materials: Strong oxidizing agents.
- · Hazardous decomposition products: Formaldehyde. Hydrogen.

#### 1 Toxicological Information

- · Information on toxicological effects:
- Acute toxicity:
- · LD/LC50 values that are relevant for classification: No data available.
- · Primary irritant effect:
- · On the skin: Mild irritant effect.
- · On the eye: Mild irritant effect.
- · Additional toxicological information:

The product shows the following dangers according to internally approved calculation methods for preparations:

Irritant

· Carcinogenic categories:

·IARC	(Inte	rnatic	onal	Agen	су	' fc	or Research on Cancer):
							•

None of the ingredients are listed.

#### • NTP (National Toxicology Program):

- · Persistence and degradability: No further relevant information available.
- Behavior in environmental systems:
- · Bioaccumulative potential: No further relevant information available.
- · Mobility in soil: No further relevant information available.
- Additional ecological information:
- · General notes:

Do not allow undiluted product or product that has not been neutralized to reach ground water, water course or sewage system.

- Results of PBT and vPvB assessment:
- · PBT: Not applicable.
- · **vPvB:** Not applicable.
- · Other adverse effects: No further relevant information available.

#### 13 Disposal Considerations

· Waste treatment methods

#### · Recommendation:

Must not be disposed of together with household garbage. Do not allow product to reach sewage system. Observe all federal, state and local environmental regulations when disposing of this material.

#### · Uncleaned packaging

· Recommendation: Disposal must be made according to official regulations.
